Joining Edgewood

Thank you for your interest in the Edgewood Country Club. Our membership offers a host of recreational and social activities for you, your family, friends, and associates. With first-class facilities for dining, golf, swimming, tennis, and paddle tennis, Edgewood has something for everyone to enjoy.

Consider Edgewood your home away from home – a place to unwind, relax, meet new friends, enjoy favorite pastimes and recreation, and to gather with fellow members for special events and holiday celebrations. The Club is also an excellent resource for your business meetings or entertaining – from casual dining to large parties.

• How to Apply For Membership •

You are encouraged to visit Edgewood Country Club with a current member or our general manager prior to applying for membership so you can experience the club's ambiance and its dining and recreational facilities.

After you have decided to join, you need to have two resident members propose your membership using the application form supplied by the membership committee.

The membership committee will then meet with you to discuss your membership in the club. Following that meeting, your application will be sent to the Club's Board of Directors for approval.

Please allow at least 14 days for us to complete our membership process.

Golf

The Edgewood golf course was designed in the 1920's by Donald Ross, one of the all-time great golf course architects. Since that time, the course has been updated several times. The most recent renovation, completed in 1993 under the guidance of Arthur Hills, consisted of upgrading the bunkers and greens while maintaining the integrity of the original Ross design.
